

LAGOS CITY POLYTECHNIC, IKEJA
SCHOOL OF ENGINEERING AND APPLIED SCIENCES
DEPARTMENT OF COMPUTER SCIENCE
2015/2016 SEMESTER EXAMINATION

1. (a) Define and illustrate the following using Vennu Diagrams
 (i) Universal set (ii) Complement of a set (iii) Subset
 (iv) Intersection of sets (v) Disjoint sets

(b) Consider the figure below:

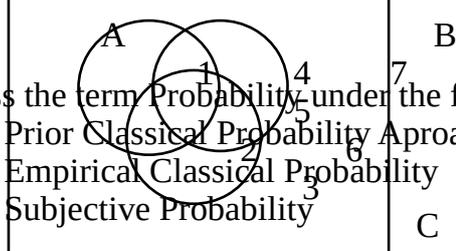

COURSE TITLE: ELEMENTS OF PROBABILITY NO OF QUESTIONS: 6
COURSE CODE: STA 112 TIME ALLOWED: 2

HRS FOR WHOM: A ND YR I CS B PT INSTRUCTIONS: ANY

- ANSWER 1. (a) Define and illustrate the following using Vennu Diagrams
 (i) Universal set (ii) Complement of a set (iii) Subset
 (iv) Intersection of sets (v) Disjoint sets

(b) Consider the figure below:

- (i) $(A \cup B) - c$ (ii) $(A \cap B)$ (iii) $A \cap (B \cup C)$
 (iv) Exactly Two set (v) At least two sets (vi) Exactly

2. Discuss the term Probability under the following approaches:

- (a) Prior Classical Probability Approach
 (b) Empirical Classical Probability
 (c) Subjective Probability

3. (a) Define the following probability terms:
 List elements of the Universal set corresponding to
 (i) Sample Space (ii) Equally-likely Events
 (iii) Mutually Exclusive Events (iv) Exhaustive Events (v) $A \cap (B \cup C)$
 (vi) Exactly Two Events. (vii) At least two sets (viii) Exactly

(b) Of the 125 person applying for a certain job at a data processing centre 79 had previous work experience and 62 had college degrees; while 38 had both work

2. Discuss the term Probability under the following approaches;
 (a) Prior Classical Probability Approach
 (b) Empirical Classical Probability
 (c) Subjective Probability
 (iii) How many applicants had work experience but not college degrees?
 (iv) How many applicants had college degrees but not work experience?
 3. (a) Define the following probability terms:
 (i) Sample Space (ii) Equally-likely Events
 (iii) Mutually Exclusive Events (iv) Exhaustive Events
 (v) Independent Events. (vi) both?

4. (b) Of the 125 person applying for a certain job, at a data processing centre 79 had previous work experience and 62 had college degrees, while 38 had both work experience and college degrees
 (i) When A and B are independent
 (ii) When A and B are

- (iii) How many applicants had work experience but not college degrees?
 (iv) How many applicants had college degrees but not work experience?

person chosen at random from this group?
 (v) How many applicants had either work experience or college degrees but

4. (a) Given Event A and B in the Sample space S what do you understand by the term
 (i) Have a hot breakfast and a hot lunch?
 (ii) Have a hot breakfast or a hot lunch?
